Kent Business School

Kent Business School is an international Business School, with a global reputation for delivering research and teaching excellence. We are proud to be part of a selection of global business schools worldwide to hold double-accredited status (AACSB and AMBA) and one of the leading Universities in the UK for academic research (in the REF2014 we ranked 17th for research intensity) and business engagement (gained the Small Business Charter Award in 2018). Our commitment to gender equality was recognised by our 2020 Athena SWAN bronze award.

As a dual-intensive Business School, our distinctiveness comes from a forward-thinking approach to business education. We place sustainable innovation at the heart of our educational outlook, underpinned by world-class research. We are interdisciplinary by nature, bringing innovative solutions to real world issues. We are integrated into the local business community as a hub for knowledge creation and exchange. We are proud that our industry collaborations and global partnerships benefit students, businesses and the community.

Our students are well equipped to drive positive change and thrive in a dynamic world by knowledge, confidence and resilience developed as part of our distinctive educational experience, and from their interaction with staff and industry.

We are an open and diverse place for discourse and debate where everyone is treated with respect and appreciation. We acknowledge difference, and our spaces allow for co-creation and interdisciplinarity to design innovative solutions to real world challenges.

We strive for excellence in all we do and work actively to create a supportive environment that empowers our students and staff to fulfil their potential. We are committed to make a real difference and contribute to the economy, environment and society locally, nationally and internationally.

Kent Business School is one of six academic Divisions within the University of Kent. The School has 2388 students and 137 staff. We offer a strong and growing portfolio of undergraduate, postgraduate taught and research programmes on our two campuses in Canterbury and Medway. The School also delivers part of its MBA programme in Brussels and Paris.

We are investing in our programmes, staff, and facilities. In Canterbury, Kent Business School moved into their new home 'Sibson' in early 2017. The state-of-the-art building with new teaching and learning rooms and modern social and breakout areas, encapsulate the School's academic values and identity.

In Medway, Kent Business School re-located to the Historic Dockyard, occupying the 'Sail and Colour Loft'. Here, modern learning facilities feature within an iconic historic building forming inspiring learning spaces.

Research

We are a forward-looking Business School with an international reputation for excellence in sustainable innovation delivering research that makes a difference to our wider communities, economy, culture and the world at large. We strive to create an inspirational and inclusive environment for knowledge creation and the pursuit of research and innovation excellence and impact.

The school has successfully build on the strong research-quality profile reflected by our REF2014 results with more than half of the School's research activity (67%) being classified as 'world leading/internationally excellent' (3* and 4*). Our researchers are recognised for their contributions to a range of fields. In Ioannidis' 2020 Stanford University Report, seven KBS staff were ranked in the Top 2% of Scientists in the World.

Our strategic priority is to continue to develop the School's research excellence and impact by appointing new, especially senior, staff and through developing the potential of our current staff. We expect our senior faculty to be enthusiastic and entrepreneurial research leaders who set an example for colleagues throughout the School. The academic governance structure and research centres support this development, in particular, the consolidation and extension of theme-based research and the parallel development of department-based research strategies.

The School academic structure consist of four Academic Departments:

- Department of Accounting and Finance
- Department of Analytics, Operations and Systems
- Department of Leadership and Management.
- Department of Marketing, Entrepreneurship and International Business

We encourage collaboration across departments and welcome the contributions of new faculty members to take an active role in shaping the research agenda in their subjects as well as cross-cutting themes, such as sustainability, innovation and enterprise. We are keen to collaborate across disciplines and subject areas with a view to demonstrate impact. Where appropriate, we seek to complement our strengths by actively developing partnerships inside and outside the University. The School is also keen to increase its research and consultancy income – an area to which the new post holder is expected to make a contribution.

Learning and Teaching

This arrangement means staff agree to receive a lower amount of gross pay and in return will be provided with free (or part thereof) workplace nursery places.</p>

Travel Expenses and Relocation:

Travel Expenses

Travel between an employee's home and their normal place of employment (as specified in the contract of employment) is private travel and will not be reimbursed by the University. Employees who spend time working at home but otherwise have a place of work at a University location must also treat travel to and from that location as a private journey. Employees whose contract of employment specifies that their place of work is their home address, but occasionally visit a University location, may treat the travel as a business journey. This should be taken into consideration before accepting the role and salary on offer.

Relocation

To support our aim to attract excellent people to Kent, the University offers comprehensive and flexible assistance to those looking to relocate. Relocation expenses can be made available for those who have to move to the vicinity of a University Campus to a post, which is tenable for two or more years, and a Grade 7 or above.
