School of Computing

The School of Computing at Kent is a welcoming and supportive environment that has been recognised with a Bronze Athena SWAN award. We are a well-balanced, inclusive and diverse community that aims to further enhance our achievements and reputation in teaching, research and innovation.

The School is located on two impressive campuses at Canterbury and Medway. Both are safe, friendly, well-equipped and in desirable locations, with excellent schools and a wealth of cultural links and superb transport connections.

The Medway campus is home to the Computing, Business Information Technology and Computer Science for Health undergraduate programmes, as well as PhD degree programmes. Medway is a vibrant and modern campus just half an hour from London by train, located in one of the most historic areas in the country. Medway provides outstanding research, teaching, learning and leisure opportunities for 3000 students under a unique co-location concept shared by three universities. As well as award-winning buildings and brand new facilities, the campus encompasses the Historic Dockyard heritage area, launch site of Admiral Nelson's flagship HMS Victory which today provides a period backdrop for numerous films and television dramas such as Call the Midwife and Sherlock Holmes.

The Canterbury campus is home to Computer Science undergraduate, Master's and PhD degree programmes. The campus houses some 16,000 students across all disciplines, with 125 nationalities represented, and has a very cosmopolitan feel. Founded in 1965, it is the University's original site and is built on parkland overlooking the city centre with fast transport links to London and mainland Europe. The campus is self-contained and includes student accommodation, a library, sports centre, theatre, nightclub, cinema, places to eat and bars, shops and a medical centre.

Teaching:
Our undergraduate degrees offered at Medway all include the possibility of a year in industry between the second and final years. Our dedicated Placement Officers provide guidance throughout the whole process and support students while they are on their placements. Our students have an excellent record of employability. For full details of all our undergraduate degrees, see: https://www.cs.kent.ac.uk/ug/degrees.html

A wide range of taught MSc programmes are offered in Canterbury. These programmes offer flexibility in entry routes, content and format and are available full-time or part-time, with an optional industrial placement. Plans are in place to launch an MSc from the Medway Campus within the next few years, most probably relating to a Big Data or Data Science theme.

Research:
The School has internationally-recognised research in 5 broad research groups, full details of which are at: https://www.cs.kent.ac.uk/research/index.html
The REF 2014 ranked us in the top quartile of 89 UK Computing departments, coming 22nd for Research Power and 12th for Research Intensity, and we anticipate improving on this in the next REF. Research income in the school tripled in the year 2015/16. The School currently has some 45 research students across all its research groups.

**Innovation and Enterprise:**
The School’s research has impact on the products, services and practice of the software industry, on the use of computing systems in a range of industrial and social sectors, and on the education and training of programmers in schools, Higher Education Institutions and business. We have research links with a number of larger enterprises, including Microsoft, IBM and Google. The School values the contributions of its staff towards innovation and enterprise.

Students are a key part of the School’s engagement with industry. The Kent IT Consultancy (KITC), which provides IT consultancy for businesses across Kent, is staffed by students under the supervision of an experienced IT consultant. Since its inception in 2004, the KITC has generated more than £70k external income, as well as giving face to face IT consultancy experience to more than a hundred students.

As well as the KITC, student placements give the majority of undergraduate students in the School one year’s experience in industry. Placements are in IT companies (such as Cisco, IBM, Intel and Accenture Technology Solutions), in large enterprises (including Eli Lilly, Morgan Stanley, and the NHS) as well in small to medium-sized enterprises in the region.

More details about the School can be found on our website: [www.cs.kent.ac.uk](http://www.cs.kent.ac.uk)
