

Job Description

Education Fellow (Clinical Skills)

| | |
|---------------------------|--|
| Salary: | Grade 7 |
| Contract: | Part time, ongoing |
| School/Department: | Kent and Medway Medical School |
| Location: | Canterbury Campus |
| Responsible to: | Lead for Clinical Skills, or their nominee |

Kent and Medway Medical School

Kent and Medway Medical School (KMMS) opened to our first cohort of students in September 2020. Our vision for KMMS is to create a new medical school for Kent and Medway that becomes a beacon for first-class medical education and research. The School will attract the most talented aspiring doctors from within the local community and beyond, offering training and development opportunities that will help to keep that talent in Kent and Medway.

KMMS brings together the existing centres of excellence in health and medical education provided by the University of Kent and Canterbury Christ Church University and local healthcare organisations, to offer a new model of person-centred medical education.

Lead by its Founding Dean, Professor Chris Holland, the School offers 109 Home and 7/8 international undergraduate medical places on a yearly basis. The five-year undergraduate programme is taught at the Canterbury campuses of both university partners with medical placements within Primary, Community and Secondary Care across Kent and Medway.

The University of Kent is a leading academic institution. It has an excellent track record in health training, research and innovation across a range of disciplines, including Biomedical Science, Pharmacy and the Social Sciences. The University of Kent is also one of two equal partners in the Medway School of Pharmacy (MSOP) which opened in 2004 and graduated its first MPharm students in 2008. The MSOP is underpinned by the University of Kent and the University of Greenwich and is based on a shared campus in Medway.

Canterbury Christ Church University has a significant portfolio of pre-registration healthcare programmes, underpinned by strong leadership, extensive relationships to support clinical placements, simulation facilities, and internationally recognised research promoting health and wellbeing.

Equity, Diversity and Inclusion

We welcome applications from members of all the non-majority parts of our community and KMMS is committed to the fair treatment of all staff and students and ensuring that the learning and working environment are supportive and inclusive for all. Duties in the delivery of learning, teaching and supporting students and staff should be performed in a manner in keeping with the School's commitment to equality and diversity. KMMS will work towards attaining an appropriate Athena Swan award.

Job purpose

KMMS Education Fellows contribute to the development and delivery of our undergraduate BM BS programme in a variety of settings, such as group tutorials, team-based learning, large group lectures, in the areas of assessment, anatomy and clinical skills, including communications skills and simulation. Education Fellows will also be expected to contribute to multi-station mini-interviews (MMIs), assessment work such as question writing, marking, standard

setting and OSCE examination. Education Fellows are also expected to actively input on course development, programme evaluation and curriculum changes as is needed.

Clinical Skills teaching takes place on set days of the week within the KMMS timetable – these are exclusively undertaken on Mondays (Year 1) and Tuesdays (Year 2) with workshops running for the full day.

Key accountabilities

- Undertake teaching activities of both undergraduate and postgraduate students, including providing support for student learning.
- Collaborate with colleagues in the school on course development, delivery and assessment, taking on appropriate administrative responsibilities.
- Support the quality assurance of teaching activities and other curriculum management aspects.

Key duties

The principal duties and responsibilities of the successful candidate will include:

- Participate in the delivery of small and medium size group (workshops and seminars) and full cohort (lectures) including preparation, coordination and administration of teaching sessions.
- Deliver workshop and practical based teaching relating to clinical and professional skills including physical examination, communication and procedural skills.
- Supervise teaching sessions involving clinical simulation which includes modalities such as peer to peer examination, simulated manikins, procedural task trainers and simulated patients (actors).
- Provide effective feedback and debriefing to students relating to their clinical and professional skills development.
- Contribute to the creation, development and evaluation of course material for student- centred learning
- Ensure that the content, methods of delivery and learning materials will meet the defined student learning objectives.
- Prepare student and staff learning support materials.
- Reflect on own practice and the development of own teaching, learning and assessment skills.
- Plan and manage own teaching and tutorials as agreed with line manager.
- Contribute to the preparation, set-up, administration, marking and quality assurance of assessments in anatomy spotter examinations / Objective Structured Practical Examination (OSPE) / Applied knowledge Tests (AKT) / Objective Structured Clinical Examinations (OSCE).

Communication and teamwork

- Use academic support skills to assist students in their learning and refer students as appropriate to services providing further help.
- Collaborate with academic and professional colleagues on course development and curriculum changes.
- Attend and contribute to subject group meetings and collaborative decision-making with colleagues on academic content, and on the assessment of students' work.
- Contribute to KMMS's annual multi-station mini-interviews (MMIs) as part of the student admission cycle.
- Contribute to OSCE examinations through examining and logistical activities.

Continuous professional development

- Possess sufficient breadth and/or depth of clinical knowledge in the discipline and develop skills in teaching methods and techniques.

- Engage in continuous professional development.
- Participate in regular meetings with their named supervisor or area lead.

Other duties, commensurate with the grading of the role, may also be assigned from time to time in line with the needs of the programme at different stages of its development and implementation.

Internal & external relationships

Internal: University of Kent students and staff (academic and professional services)

External: Professional bodies, placement supervisors and prospective students and their families, potential enterprise partners.

Health, safety & wellbeing considerations

This job involves undertaking duties which include the following health, safety and wellbeing considerations:

- Repetitive limb movements
- Regular use of Screen Display Equipment
- Working with chemicals (inc. requirement to wear latex gloves and inc. work with CO₂ or N₂ gasses)
- Biological Agents/Scientific Hazards (experiments/lasers etc., and waste/sewage)
- Working in confined spaces
- Prolonged physical/manual work/Manual handling (inc. human beings)
- Conflict resolution
- Contact with Human fluids (blood, saliva etc.)

Person specification

The person specification details the necessary skills, qualifications, experience or other attributes needed to carry out the job. Applications will be measured against the criteria published below.

Selection panels will be looking for clear evidence and examples in an application, or cover letter (where applicable), which back-up any assertions made in relation to each criterion.

Essential Criteria:

- A Medical/Healthcare degree and/or diploma (I)
- Demonstration of recent clinical experience within the NHS (A, I)
- Advanced knowledge of the relevant subject area to effectively deliver teaching within the clinical skills theme of the BM BS programme (A, I)
- Experience and understanding of how clinical skills are applied within the NHS (A, I)
- A demonstrable interest in teaching and learning in undergraduate or postgraduate learning and teaching in medicine or a closely related discipline (A, I)
- Accuracy and attention to detail (I)
- Ability to communicate with clarity and enthusiasm (I, T)
- Ability to tutor students effectively and give clear and constructive feedback (I)
- Ability to work accurately and to tight deadlines, organising and deploying time effectively (I)
- Clear evidence of organisational, administrative and IT skills (i.e. Microsoft Office) (A,I)
- A commitment to contributing fully and flexibly to the full range of activities required (I)

- Firm commitment to achieving the University's vision and values, with a passion for a transformative student experience (I)
- Commitment to deliver and promote equality, diversity and inclusivity in the day-to-day work of the role (I)

Desirable Criteria:

- A post-graduate teaching qualification (e.g. Grad Cert) or Membership or Fellowship of the HEA or AoME or equivalent (A)
- Advanced knowledge of the relevant subject area to effectively deliver teaching within the BM BS programme (A)
- Experience of teaching undergraduate medical and/or healthcare students (A, I)

Assessment stage: A - Application; I - Interview; T - Test/presentation at interview stage
